→ Button that will lead to a page of the specific region data and visualisation

Here in sec 1 it will focus on gold diff and will compare the 3 regions.

→ The method of visualisation is TBD

Will focus on the individual gold diff in all 5 roles to see which region is best at which role.

### Additional Feature:

Implement a button for each visualisation so that the data is shown from all games, blue side or red side.

Side selection plays a huge adv with blue side being better.
